

POLICY OF INTERACTION WITH THE LOCAL COMMUNITY

The management of the hotel Royal Palm Resort & Spa believes that, in order to guarantee a good operational performance and to be able to satisfy all the needs of our customers and exceed their expectations, the company must be integrated in the local community as good as possible.

The hotel will interact constantly with the authorities, as well as local businesses and citizens. We want to establish strong relationships that are profitable for all parties.

We currently acquire the following products locally:

- Meat and dairy products from the Canary Islands.
- Artisan cheese of Fuerteventura.
- Fresh fish from local fishermen.
- Water and beer from the Canary Islands.
- Canarian wine.
- Eggs from local farms.
- Vegetables and fruits from local farming.

We want to strengthen our partnership with the local hotel school to improve the integration of citizens in the labour market. During the year 2021 two people on training have been able to make their practices in our facilities.

We collaborate with the local surf school Wellenkind and CleanOceanProject, a private project based in Fuerteventura, which are also dedicated to the cleaning of beaches and our oceans.

We offer several spaces in our facilities where local artists exhibit their art works.
